PRESIDENTIAL SECRETARIAT

March 19 , 2012

To Whom it May Concern

The Presidential Secretariat is aware of the project to construct four fully equipped surgical theatres at the Batticaloa Teaching Hospital by the Batticaloa Teaching Hospital Emergency and Accident Project (BEAP) led by Dr David Young, a renowned and eminent Orthopaedic Surgeon in Australia.

The possibility of expanding infrastructure and the provision of a new Accident and Emergency Ward and a modern Trauma Unit at the Batticaloa Teaching Hospital is a welcome initiative to Sri Lanka's efforts to develop its national emergency management and response services in the health sector.

I am pleased to convey the best wishes of His Excellency Mahinda Rajapaksa, President of Sri Lanka, towards the successful completion of this laudable project.

Lalith Weeratunga
Secretary to the President of Sri Lanka
